

MEDIA RELEASE

DATE: November 2, 2011

FOR IMMEDIATE RELEASE

The District of Mission Council wishes to state inaccurate information was released that the decision of Council on April 4, 2011, to not participate in a P3 grant application for the development of the Stave Lake Water source was going to be reconsidered at a close meeting on April 11, 2011. This information was not factual. Council did not, nor did they intend to reconsider the decision to not submit a joint P3 grant application with Abbotsford.

Any decision of the District of Mission Council to reconsider a motion made in public would be made in public.

Mission and Abbotsford have always shared a positive working relationship both at the Council and staff level. District of Mission Council has directed staff to build on our working relationship working through the Abbotsford Mission Water Sewer Commission to look for options to develop the Stave Lake water source.

District of Mission Council is committed to meeting the future water supply needs of the community and will work diligently to identify options for moving forward. Council is also committed to keeping the public informed on the progress of our future water supply options and will provide updates through public Council meetings, the media and Mission's website.
