

MEDIA RELEASE

DATE: August 23, 2011

FOR IMMEDIATE RELEASE

The District of Mission Council is working to release information to the public about the unauthorized release of closed meeting documents and information. Over the course of the last term of office Council has, on a number of occasions, discussed their concern of confidential information being in the public venue on a variety of topics; not just PSIT or P3 water. Concern was expressed of potential financial, relational and risk management and other costs to the District stemming from these unauthorized releases.

In February of this year, Council voted unanimously to initiate an investigation into the unauthorized release of information. Council is looking to pursue remedies to this serious issue and to work toward the release of as much information it is able regarding this ongoing issue.
