

Spring Cleanup – April 28th to May 9th

Single-family homes with curbside collection can put out an **additional two cubic metres of waste on their regular garbage collection day.**

What’s a Cubic Metre?

It’s about six garbage bags, or one stove, or one armchair. Anything beyond the limit of two cubic metres will be left behind.

What are the Rules?

MATTRESSES MUST BE BAGGED. Bags are available free of charge from Welton Common, the Leisure Centre, Public Works, and City Hall.

- All materials must be secured and safely manageable by two people. No loosely piled materials. Multiple items small enough to fit in a bag must be contained or they will not be collected.
- Put out additional garbage bags only on the morning of your garbage collection day to avoid wildlife attraction.
- Clean up leftovers promptly.

Unacceptable Items for Collection – See Drop-off Options

- **Construction, demolition and renovation wastes**, including drywall, flooring materials, cabinetry, lumber, fencing, roofing, bricks, rocks, toilets, sinks, pallets, and windows.
- **Hazardous materials and liquids**, toxic, flammable, corrosive and petroleum products, needles, animal wastes, paint, pesticides, used oil, antifreeze, and fluorescent lights. This includes anything that could cause injury during collection for example mirrors and shower doors.
- **Electronics and automotive parts**, including TVs, computers, monitors, printers, tires, and car batteries
