Municipal Forest Trails

The District of Mission is one of the few municipalities that manages its own forest resources.

The Forestry Department maintains 13 recreation trails within the Municipal Forest for hiking, horseback riding or mountain biking.

Our forestry trails are signed at the trail head and marked throughout the route with orange reflective markers.

- Please avoid any unmarked trails as you could quickly become lost.
- Please respect other users on the trails at all times.
- Please pack your garbage out and leash and pick up after your dog.
- Please Refrain from shortcutting on trails, it causes erosion and destroys the vegetation.
