Michelle Favero, Manager, Mission Regional Chamber of Commerce Re: Building Community Leadership Pilot Project

Michelle Favero, Manager of the Mission Regional Chamber of Commerce, appeared before Council to introduce the *Building Community Leadership for the Future* pilot program initiated by the Chamber of Commerce.

Ms. Favero stated:

- community organizations form 10% of the Mission Chamber of Commerce membership;

- those organizations are struggling to find willing board members, and are saying that they need fully engaged participants to help their organization grow and develop to meet the changing needs of the growing community;
- the Chamber undertook a survey of all community organizations which found that:
 - the majority of volunteers are 45-65 years old, often women,
 - a growing number are retired and thinking about moving away,
 - most organizations get by with their volunteer base but are starting to see a decline in volunteerism, and
 - younger volunteers are unsure and not confident they have the skills to be at the table;
- educating those people that are available is extremely expensive with no certain commitment, therefore the Chamber will be piloting a project to help develop the leadership potential in Mission by developing a program to bring affordable leadership training here;
- the project team is a cross section of members representing important partnerships;
- the team's vision is to inspire confident leaders, and the team's mission is to identify, train and connect confident community leaders;
- the pilot program will be a four part series based on critical aspects of leadership: ethical decision making, using influence to ignite passion, developing strengths and managing change;
- it will include a series of engaging speakers which is being supported by UFV's Presidents Speaker Series and community workshops that will run one Saturday a month from January to April of 2012;
- the Chamber will keep a registry of the identified trained leaders with their areas of passion and strength for community organizations to access; and
- the Chamber is asking the District of Mission to formally recognize those in the community that complete the series of workshops and speakers as Community Leaders.

Mayor Atebe thanked Ms. Favero for the presentation.

Moved by Councillor Horn, seconded by Councillor Scudder, and

RESOLVED: That the District of Mission work with the Mission Regional Chamber of Commerce to find a way to formally recognize those in the community that complete the *Building Community Leadership for the Future* series of workshops as Community Leaders.

Mission District Historical Society
Re: Request for Additional Funding

Joan MacLatchy, from the Mission District Historical Society, appeared before Council to ask for additional funding due to the reduction in provincial gaming funds.

Ms. MacLatchy invited members of Council and the general public to the Mission Archives open house on Thursday, November 17, 2011 from 6:30 to 8:30 p.m.

Ms. MacLatchy provided an overview of the history, mission, mandate and contributions of the Mission District Historical Society, and further stated:

- Mission's museum and archives are only able to be open for part time hours on limited days of the week, as compared to the hours of operation of museums and archives in other municipalities, including smaller ones;
- programs and services have grown each year due to the dedication of both paid staff members and volunteers;
- this year the Community Gaming Grant funding was reduced to \$14,000 from \$25,000, and there is no certainty of any funding from that source in 2012;
- grants from other sources have dropped off as well, and the Society is using its reserve fund to cover the remaining budgeted programs for 2011;
- the only area in their budget that can be reduced is staffing, however the paid professional staff are already working only part-time hours;
- professional staff are essential, as no modern museum or archives can operate by volunteers alone;
- if the paid staff hours are further reduced, there is a risk of losing that staff to other full time employment;
- the Society is just able to maintain levels of service with the staff hours they now have, and will not be able to do the job or keep their volunteers with fewer hours;
- the Society is asking Council to consider providing \$25,000 in financial support in 2012 so that the current operations of the Mission Community Archives, the Mission Museum and Heritage Places can be maintained.

In response to questions from Council, Ann Senae stated that provincial grant funding for non-profit societies has been cut across the board, and no reason for the reductions has been provided.

Mayor Atebe thanked Ms. MacLatchy and Ms. Senae for the information.

Moved by Councillor Scudder, seconded by Councillor Plecas, and

RESOLVED:

1. That staff include the request from the Mission District Historical Society for \$25,000 as a spending package in the 2012 budget considerations with identification of a funding source;
2. That staff investigate whether the current model of operation for the museum and community archives is sustainable and report back; and
3. That staff work directly with the Mission District Historical Society to identify and address their specific needs.

Lloyd McKimmon
Re: Noise Pollution in Hatzic Area – 34980 Lougheed Highway

Mr. Lloyd McKimmon appeared before Council to ask them to impose a stop work order on the log peeling operation at 34980 Lougheed Highway.

Mr. McKimmon stated:

- this was his second time appearing before Council asking them to address the issue;
- the noise has been continuous for four and a half months and ruined the summer for the local residents;
- neighbours have had to wear headphones or use earplugs to work at home or to take a nap;
- he is happy with the report from BKL Consultants Ltd., but is not happy with the staff recommendation to do nothing until the latest deadline passes; and
- he would like to see issue dealt with tonight, because the District's procedures bylaw will not allow him to appear again for another two months.

In response to questions from Council, the Deputy Chief Administrative Officer provided a brief summary of the legal processes that would have to take place before the work could actually stop.

Mayor Atebe thanked Mr. McKimmon for the information.

Moved by Councillor Horn, seconded by Councillor Gidda, and

RESOLVED: That if the excessive noise emanating from 34980 Lougheed Highway has not stopped by November 11, 2011, the Deputy Chief Administrative Officer will meet with the business owner on November 14, 2011 to advise him that Council will proceed with legal steps.

Ruskin Dam Project Traffic and Parking Management

A report from the Director of Engineering and Public Works dated November 2, 2011 regarding the BC Hydro Ruskin Dam project traffic and parking management plan was provided for the Committee's information.

Two representatives from BC Hydro, Charlotte Bemister, Environment, Regulatory and Social Issues Manager and Bob Peaver, Construction Manager for the Ruskin project, were in attendance to answer any questions from Council.

In response to various questions from Council, Ms. Bemister stated:

- BC Hydro is working closely with local residents and has completed a base line study of the current noise, which is available to anyone who wishes to see it;
- the BC Hydro environmental management plan for the project includes social components, and requires every contractor on the project to develop noise abatement methods and to advise Hydro how they are going to manage and control those methods;
- they can provide copies of the base line noise study and each contractor's noise abatement plans to the Director of Engineering and Public works;
- the Ruskin recreation park will be closed for several years during the construction project, and will have a significant impact on those people who come to that area to fish or swim;
- BC Hydro is working on a plan to increase parking at the Hayward recreational area to accommodate those people who usually enjoy swimming at Ruskin;
- a solution has not yet been found to accommodate those people who come to Ruskin to fish, however the fishing area is still open and accessible up through the river;
- BC Hydro is working with the District of Mission and local residents with regard to enforcement of parking along Wilson and Hayward Streets, and will be adding a couple of parking spaces at the Ruskin Townsite for local residents and their guests;
- if the District and local residents do not want to have rumble strips incorporated as part of the traffic calming plan, then BC Hydro will not install them on municipal roads;
- they will be using the area that is identified for the switchyard as a parking and lay down area during construction, and will be finishing the switchyard near the end of the project, along with any rehabilitation of the various sites, such as the Ruskin recreational area;
- all the contractors are required to have an off-site mobilization area and a shipping and delivery plan so there are not vehicles parked overnight or idling in front of people's houses; and
- BC Hydro is still looking at how to best manage the loading/unloading of gravel trucks.

Moved by Councillor Horn, and

RECOMMENDED: That the Engineering Department work with BC Hydro to address:

- (a) parking issues along Wilson Street related to people using the area to fish;
- (b) traffic calming measures in the Ruskin area; and
- (c) options for alternate trucking routes to keep the heavy trucks out of the downtown area.

Garden Cottage Policy Discussion (Verbal – Councillor Horn)

Councillor Horn expressed concern about the potential for someone to circumvent proper procedure by building a cottage house on a property, and then submitting an application to subdivide into two properties.

The Deputy Director of Planning stated that the zoning bylaw contains provisions that do not allow a garden cottage or coach house to be subdivided onto its own separate lot.

Moved by Councillor Horn, and

RECOMMENDED: That staff draft a zoning bylaw amendment that would require a restrictive covenant prohibiting a garden cottage or coach house to be subdivided onto its own separate lot.

Re: Request for Resolution of Support

Correspondence from the BC Community Living Action Group dated October 13, 2011 requesting a resolution of support was provided for the Committee's information.

Moved by Councillor Stevens, and

RECOMMENDED: That the following motion be circulated to the BC Community Living Action Group, Community Living BC, the Ministry of Children and Family Development,

the Lower Mainland Local Government Association, the Union of British Columbia Municipalities, and Mission's Member of Parliament and Members of the Legislative Assembly:

"WHEREAS

1. The Provincial Government is cutting funding and supports for adults with developmental disabilities, resulting in the closure of group homes and mounting waiting lists for services;
2. These group homes form a vital and necessary part of the housing continuum that has won broad support from members of the public at large, families of adults with developmental disabilities and the communities in which they are located;
3. The Parent Support Group for Families of Mentally Handicapped Adults Society has approached the City of Vancouver seeking assistance to create new supportive housing options to provide homes for parents and their adult children with developmental disabilities;
4. The forced relocation of adults with developmental disabilities, against their will and without the support of their families, is causing severe emotional hardship to many families and growing vulnerability in the community, jeopardizing health and safety and increasing the risk of illness or homelessness;
5. The BC Community Living Action Group, which represents more than 65 affected agencies and organizations, thousands of families, and adults with developmental disabilities, has called for an end to service cuts and the closure of group homes.

THEREFORE BE IT RESOLVED that Council urge the Provincial Government to end funding cuts, implement a moratorium on the closure of group homes and provide sufficient financial resources both to maintain this vital housing resource and address growing waitlists."
